Internship Offer Letter

Student Name : ANUBHAV SHRIJAN MISHRA
Stream : B.Tech
Branch : B.Tech(Electronics and Communication Engineering)
Institute Name : SRM Institute of Science and Technology, Kattankulathur
Internship Domain : Fortinet Network Security Associate
Internship Duration : June 2026 - August 2026
AICTE Student ID : STU65fdcb08d64a51711131400

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Introduction to Cybersecurity Threat Landscape: Social Engineering & Malware	Learn cybersecurity fundamentals, attacker types, social engineering tactics, and malware variants.
Week 2	Getting Started in Cybersecurity	Learn core network security concepts and modern security tools.
Week 3	Cybersecurity Basics	Understand encryption, authentication, and endpoint security.
Week 4	FortiGate 7.4 Operator	Interface configuration and routing setup for firewall operations.
Week 5	Firewall Policies & User Authentication	Configure firewall policies and secure access control.
Week 6	SSL Inspection & Malware Protection	Monitor encrypted traffic and prevent malware attacks.
Week 7	Web Filtering, IPS & VPN	Secure network access and manage traffic effectively.
Week 8	SSL VPN, Monitoring & Security Fabric	Secure remote access and integrated cybersecurity monitoring.
Final Credential Validation / Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
